Safety Features

+

ADVANCED OPERATOR SAFETY TECHNOLOGY

APEX Interactive Controls + Safety Vision Camera System

APEX Advanced Controls For Dump Trucks

The APEX is APSCO's display and control system for dump trucks, featuring an intuitive interface and enhanced user experience. With over 20 built in safety features, APEX helps alert operators and prevent common operating mistakes.

Safety Vision Camera System

The Safety Vision camera system improves operator awareness by providing clear visibility around the dump truck. A 10 inch touchscreen monitor activates during reversing and dump bed movement, allowing operators to monitor critical areas for safer operation.
